BROWN RULES OUT ENTRANCE RESTRAINT AT STATE COLLEGES

Golden Gater

Vol. 60, No. 6 San Francisco, Friday, October 29, 1954 Page 1

College Head Charges Appropriation Refusal Responsible for Problem

By CHUCK MENDOZA, Gater News Editor

State colleges cannot turn away students even though there is no space or staff to handle them, according to a ruling handed down last Wednesday by Attorney General Edmund G. Brown. This ruling was brought about as a result of the presidents of San Francisco State, San Jose State, San Diego State, and Sacramento State raising the entrance requirements of their respective colleges to cope with expected student increases. Only the State Board of Education has the right to raise the entrance requirements.

LACK CITED

S. F. State turned away 500 students at the beginning of this semester because of inadequate facilities and staff. S. F. State President J. Paul Leonard stated, "The basis on which we turned away those 500 students represented roughly a 20 per cent increase in entrance requirements. I don't see that we can go any further without drastic change in the whole nature of higher education in the State of California."

FUNDS NEEDED

Leonard went on to say, "We can't admit students for whom there are no teachers. If I'd done that this year, I would have jeopardized the education of every one of the 7360 students who were admitted. Unless we get more money next year, and that goes for San Jose State, Sacramento State, and San Diego State as well, I don't know what we can do."

The Attorney General's office is "in sympathy" with the schools according to Deputy Attorney General Richard H. Perry. Perry went on to say, "as a practical matter, it is an absurd situation in which the colleges now find themselves."

REQUEST SPURNED

According to the San Francisco Chronicle, San Jose State turned away 1500 prospective students. The president of San Jose State, Dr. John T. Wahlquist, explained that the action of the Legislature in refusing his special appropriation request seemed to indicate that the State Legislature wanted the enrollment limited to the equivalent of 6400 full-time students. That was the number specified in the report on which the regular appropriation was made.

Dr. Leonard said a new set of requirements, approximately like those imposed by the individual presidents this fall and now declared illegal, will be presented to the State Board of Education for action before the spring semester.

National-Local Talent Perform Here Nov. 5

A galaxy of athletic stars will make a one-night appearance at San Francisco State College, Friday night, November 5, at 8 o'clock, as Phi Epsilon Mu Fraternity sponsors their annual "Sports Night."

All proceeds will be used for a perpetual trophy to be awarded each year to an outstanding S. F. State athlete. This trophy will honor Dean D. J. Cox, who is responsible for the outstanding sports program now offered at S. F. State. Any surplus in the proceeds will be donated to the United States Olympic Team Fund.

MARTY KRUM PERFORMS

On hand for the evening's entertainment will be many nationally and locally known sports figures. Highlighting the program will be Marty Krum, member of the U. S. 1952 Olympic Soccer Team, who will lead a group of internationaly famous soccer players in the West Coast premier of an entirely new game, "Hock-Sock." This game which resembles indoor soccer, originated in Europe and is already a favorite on the East Coast. This will mark the first time it has ever been played on the West Coast.

STARS IN AQUACADE

Delia Muelenkamp, another member of the 1952 Olympic Swimming Team, and Barbara Stark, National AAU Swimming Champion, will headline the Aquacade, which is one of the features of the show. Also appearing in the Aquacade will be Cathy Stevens, S. F. State swimming star, and several acts from last spring's water show.

Larry McNesby, who has coached the National Champion Trampoline Team, will present the National Junior AAU Champion and place winners of last year's contest in AAU Trampoline competition.

Another headliner on the program will be Sam Slavich, who is the World's Champion Speed Bag puncher.

From San Francisco's Skateland will come an All-Star roller skating act. Every member of this group is an individual champion.

Contributing to the program from our own S. F. State campus will be Patsy Speer. Patsy is a well-known baton twirler, and recently placed second in the National Baton Twirling

(Continued on Page 6)

AIRLINE MANAGER TO SPEAK THURSDAY

Mr. Lloyd M. Wilson will speak on "You Ought to See Germany," Thursday, Nov. 4, at 1 p. m. in the Little Theater of the Creative Arts building.

Mr. Wilson, manager of the Pan American Airlines office for German territory. became a member of Phi Beta Kappa, national honorary society, while at Stanford University. He started his career with Pan American while on a fellowship trip to South America and has since managed offices in Lisbon, Turkey, Paris and Brussels.

Students and faculty are invited to attend the talk.

Senior Pictures Taken Nov. 1-5

Senior pictures for both February and June graduates will be taken in the Gator Swamp, Hut T-3, from 8 a. m. to 4 p. m. during the week of November 1 through 5.

Caps and gowns will be furnished. The cost will be 50 cents per person which will include four poses and four proofs. This year's photographer will be from the Tom Collins Studio.

In order to avoid the last-minute rush, all seniors are urged to have their pictures taken during the beginning of the week.

Official Notice

Junior High and Secondary Credential Candidates who are planning to apply for student teaching, Spring 1955, and who have completed the Education 150 block during a previous semester, should report to Dr. Jensen, Education Building 219, and file an application for student teaching. This should be done not later than Nov. 15.

★ ★ ★

Kindergarten - Primary and Elementary Credential Candidates who are planning to apply for student teaching, Spring 1955, and who have completed Education 130.1 during a previous semster, should report to Mrs. Merritt, Education Building 201, and file an application for student teaching. This should be done not later than November 15.

★ ★ ★

All Credential Candidates who are planning to apply for student teaching Spring Semester, 1955, and who have not cleared with the Credentials Secretary, Mrs. Eve Hodgson, Education Building 219, should do so not later than Nov. 15.

College Accepted In NSA; Officials Outline Functions

Outlining the on-campus functions of the National Students' Association as 1) a co-ordinating and informational organ and 2) as a so-called Department of External Affairs, Sally Johnson of Mills College and Jerry Goldberg of Los Angeles City College, co-ordinators of the NSA, appeared before the Board of Directors on October 26 to define more clearly the purposes of that organization.

Miss Johnson pointed out that students have more in common than they have differences. By learning about the problems of other colleges, it is possible for them to safeguard their own campuses against them or to work out solutions to similar ones; at the same time they can assist campuses in meeting problem situations.

Mr. Goldberg explained the other aspects of the organization including assistance provided in the areas of student government, programing, and relationships of faculty and administration; the protection of student rights and the assistance of students in assuming their full position of responsibility on campus; and to make the student's voice heard.

The ASSFSC are members in the organization on a trial basis until April. Claude Crownover is the NSA co-ordinator from S. F. State.

Frosh, General Primary Elections Held Today

Today is the final day of Freshman class and general primary elections for vacant class posts and representatives-at-large. Election polls will be in the foyer of the Redwood Room and in front of the Library. The polls are open between 9 a. m. and 4 p. m. today.

Only Freshmen can vote for class officers. Voting for representatives-at-large is open to every member of the student body.

Candidates running for the office of Freshman class president are: Sheldon Feldner, Al Giusti, Dan Longaker, Richard Singleton, Jann Sturgeon, and Ed Sullivan. Running for the office of vice president are: Evangeline Powell, Tom Saunders, William Short, and Donna Tillson. Candidates for secretary-treasurer are: Francyne Gallo, Janie Jackson, Sheilah MacLeod, Dianne Plov, and Esther Turner.

Running for representative-at-large with under 32 units are: Judy Conlan, Kenneth Dempster, Al Esser, JoAnne Gordohn, Gerda Greer, and Linda Silverstein. Dale Christen, Yvonne Matoff, and Peggy Stewart are running for representative-at-large with over 32 units. Julian Kaufman is the only candidate for over 60 units.

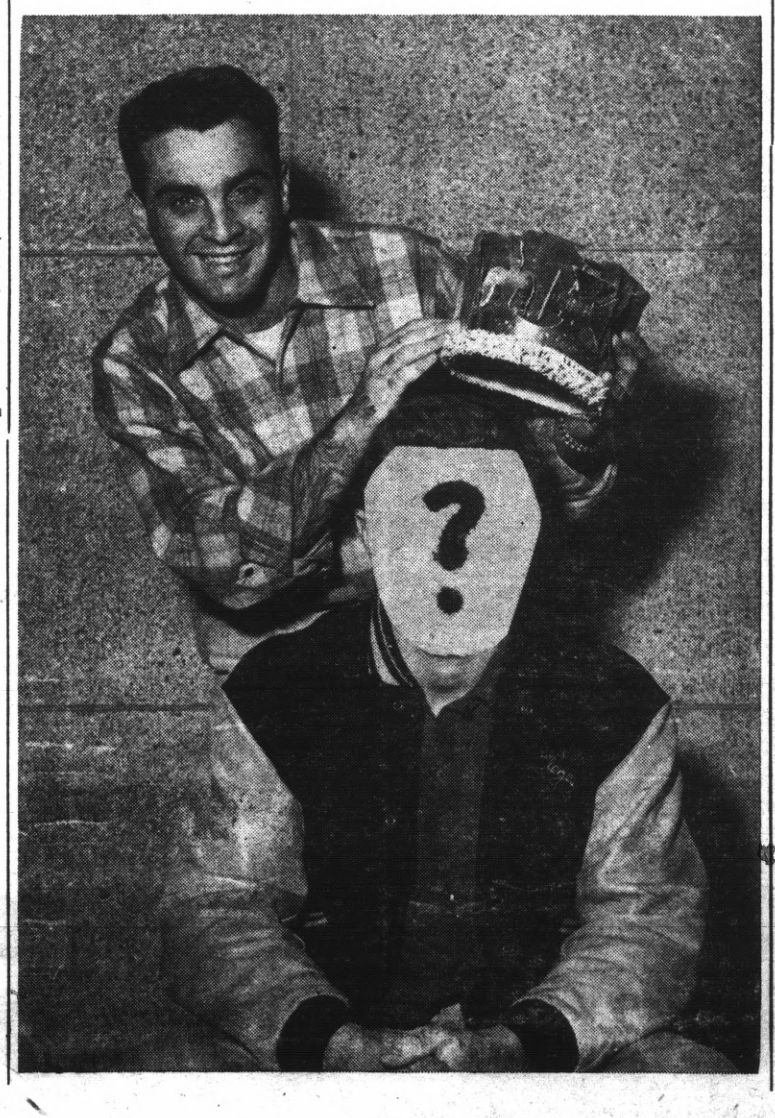
Dick Laine, chairman of the Elections Committee, urges every freshman to take part in the Freshman class officers election, and also asks that every member of the student body vote for representatives-at-large.

The run-off election will take place on November 4 and 5.

San Francisco State's campus King will be crowned tonight at a "Night in Wonerland" dance sponsored by Delta Phi Gamma and Alpha Chi Alpha.

Candidates for King are sponsored by the women's organizations on campus and voting is open to all students. Candidates for this year's contest are: Bernie Johnson, Bib'n Tucker; Harry Bremmond, Kappa Theta; Don Madera. Tri Gamma; and Bob La Costa, Phi Lambda Chi.

The dance will be held in the Women's Gym. It will start after the football game between Nevada and SFSC and will last until 1 a. m. A pizza dinner for two will be offered as a door prize. Music will be provided by Bob Jenson's Band and tickets are $1 stag and $1.50 drag.



Applications Due For Music Award

Application for the annual William F. Zech Music Scholarship must be filed before November 15 in the Music Federation office. Applicants for the scholarship, which this year amounts to $25, must possess a 1.5 over-all grade average.

All applicants will be screened by the music faculty and the Board of Directors of the Music Alumni Assication. The scholarship will be awarded at the annual general meeting of the San Francisco State College Music Association during Christmas week.

The Music Alumni Association also has donated a perpetual William F. Zech memorial trophy to be awarded in the spring of each year to an outstanding music student.

—Photo by Mike Blass.

On the northwest corner of San Francisco State stands this modernly designed building which will shortly house the Northern California School for Cerebral Palsied Children. (Stonestown tower apartments are in background.).

Construction Nearly Finished on New School for Palsied Children

By MARION McCOY

The nation's finest residential school for treatment and education of cerebral palsied children is under construction on the San Francisco State College campus and should be ready for occupancy shortly after the first of the year. In the meantime the school will remain at its old location in Redwood City.

The school, which now goes by the name of the Northern Californiia School for Cerebral Palsied Children, operates under direction of the State Department of Education (Division of Special Schools and Services) in close co-operation with the University of California Medical School and the Department of Public Health. The school is primarily for children in Northern California.

The school gets all financial help from the state. The parents are not obligated to pay anything. California's 1953-54 budget provides $295,205 to operate the Redwood City school with 48 employees. This represents an average expenditude of $8456 per child.

A RESEARCH CENTER

The new institution will serve not only as a boarding school for 32 of the most severely handicapped children in the northern part of the state, but will provide a research center for University of California medics and a training center for those who choose the task of caring for and educating victims of this little understood disease. (Cerebral palsy results from brain injury either at or before birth. Victims have little or no muscular control.) In addition to 32 full-time residents, 12 or more day students will be given care, treatment and training at the new school.

All children selected for the school are first referred to the cerebral palsy diagnostic clinic at the University of California Hospital by school authorities, private physicians, agencies, etc. After a complete examination at the hospital it is decided whether or not the patient would benefit from treatment and training at the school.

The most desirable age for children entering is 3 to 3½ years of age. Residential students usually stay at the school for 12 to 15 months. While they are there they are given intensive therapy and sometimes surgery in an attempt to provide some degree of muscular co-ordination.

GOAL OF SCHOOL

The goal of the school is to

(Continued on Page 4)

The Creative Arts

.... By ROBERT M. KLANG

The dramatic presentation which was given more hours for preparation and which involved more people than any other past State College production is for us to remember now. And it is a memory which is haunted by hardly a complaint.

But really, we should not just remember State's "King Richard III;" we must think of it as something which can inform us of the nature of our Drama Department. In those performances of "Richard" we should be able to see, with a fair degree of accuracy, what the department can have in store for future State Theatre audiences. We are able to say this because in the Shakespearean production there were all those elements, and—in a case or two—more,' which anyone can ever expect to find in any college show.

FRY: MORE THAN USUAL

Much of the "Richard" cast had students of drama who will be able to help make successful any show that State is to present during the next few semesters. Such people as John Owen, Peter Cerlanti, H. Alan Sims, William Hastings, Rudy Sollari, George Gill, Francis Kelly, Jose Sevilla, Maureen Fegan, Dolores McDougal, and Meryl Britton, among others, will indeed insure college drama at State against an over abundance of inferior qualities.

In the above list we did not inclue a certain Drama Department student who was in "Richard III." Although we do not like to single out any one person in an activity that was carried on in so co-operative a way, we must necessarily say that Ray Fry, as the Duke of Gloucester,, was one of those elements in "Richard" which was much more than college drama. Never before have we seen an actor so thoroughly live the life of the character he is portraying. We say this with the professional stage just as much in mind as the non-professional. Acting ability such as Mr. Fry's is definitely a rarity in any schools drama department.

DIRECTION AND DESIGN

The directional work of Jules Irving, the set design of Waldemar Johansen, the lighting of Ralph McCormic, and the costuming of Jack Cook also tell us that we should be able to expect future productions in the Creative Arts to be, technic-wise, capable of drawing a great amount of applause from audiences.

There is one thing we must be careful of in thinking about this show, however. We should never let ourselves substitute the quantities involved in this Shakespearean drama for its qualitative values. And in considering future State productions the same thing is true.

College Need for Expansion Cited

San Francisco State College will have to make room for 10,000 to 12,000 students in the next ten years, according to College President J. Paul Leonard.

Dr. Leonard, speaking at a Dedication Week Chamber of Commerce luncheon, cited as an example S. F. State's enrollment of 6089 students last year and 7350 students this semester. He stated, "We had to turn away nearly 1000 applicants for the fall semester."

Continuing, Dr. Leonard said that the student increase is common around the Nation and present figures indicate that by 1970, California will be reeling under the impact of a 230 per cent increase in student population.

Smatter of Opinion

By STEPHEN T. DAVIS

It is clear that definite steps will soon have to be taken to alleviate the crowded conditions of our colleges.

The tremendous increase in our teen-age population, the shortage of teachers, the approaching extinction of the creative educator, and the gradual dwindling of financial aid to institutions of a non-destructive nature have brought about a condition in which new facilities become inadequate before their completion.

Our thesis is that eventually students will have to be refused admission. Our original suggestions were to make the entrance exams more difficult, to use them as entrance exams instead of as mere statistical data, to raise required standards of performance, and to demand greater student participation in their own education; in a word, to make this an institution of higher learning, rather than a psychiatric clinic, or a lonely hearts club.

We were reminded, however, that since such steps would jeopardize the enrollments of the majority of the present student body, they would be inconsistent with our democratic tradition. After all, we were advised, the majority has the right to use this multimillion-dollar campus as it sees fit—as an archery range, as a waiting station for the recreation huts, as a drill field for junior generals, or as an adjunct to the physical education department.

In sympathetic agreement with their objections, we are considering an alternate plan which, by excluding minorities, will be consistent with the democratic principle, and contribute towards the solution of the problem.

All students whose entrance exams indicate above average interests and abilities, who consistently prepare their assignments and supplement them out of their own interest, who prefer essay examinations to the machine-scored variety, who welcome quizzes and tests as vital parts of the educative process, who use the library facilities extensively, who do not frequent the miniature clinics, known as "swamps" among their clientele; all such students, under the new plan, would be refused admission or re-admission in September, 1955.

Upon reconsideration, we realize that such a move would not markedly decrease the population of San Francisco State, but we propose it as a slight contribution.

Poet Gives Talk For Poetry Group

Jack Spicer, instructor at the San Francisco School of Fine Arts, will be the featured reader in the Tuesday series of readings by local poets. Mr. Spicer will read on Tuesday, November 2, in room 104, Arts and Industries building.

The Poetry Center, organized to foster a variety of activities related to poetry in the Bay Area, during its first, brief season, presented public readings by Theodore Roethke, and 1954 Pulitzer Prize winner Kenneth Rexroth. This season W. H. Auden was the first poet in a series of programs to bring to the West Coast audience poets from other parts of the country.

Other poets who have agreed to read in this series are William Carlos Williams, John Crowe Ransom, Allen Tate, Karl Shapiro, Kenneth Patchen, and others.

EDITORIAL

Last week members of the Board of Control who had presented a complaint to the Board of Publications regarding the alleged "slanting" of a news story in the September 24 Golden Gater decided to drop charges against the paper.

As is usual with those who attack the newspaper, when asked to file written charges they immediately withdrew. We can compliment them for one thing, they at least brought their complaint before the proper agency. We are grateful for the small favor shown us in at least bringing something into the open. Most of the complaints against the Gater reach this office in the form of vague and distorted rumors that may or may not prove to be founded on fact.

Even though the Board members did present their charges to the Board of Publications, some doubt is cast on the validity of their accusations since they refused to present a written bill of particulars.

We are getting extremely tired of the type of people who insist upon condemning the Golden Gater through muttered threats and inconclusive and vague charges.

In our effort to put together a better college newspaper we, of course, make mistakes. We cannot rectify those mistakes unless our errors in judgment are made known to us through legitimate channels, and it is difficult to defend ourselves against phantom accusers.

Panel of American Rep Visits Here

Miss Joan Meyersieck, field representative of the Panel of Americans, visited State last Monday and discussed organizational procedures with campus and faculty leaders.

While on her visit she discussed organization with leaders of the Newman Club, Hillel, the Channing Club, the Canterbury Club and the Speakers' Bureau. The Panel of Americans is devoted to the lessening of religious and racial discrimination through discussion.

Local members of the Panel, a part of the Speakers' Bureau at State are: Bobbie Morrison, Adrienne Shin, Julian Kaufman, Dick Laine, Rosie Davis, Alfredo Jordan, Doris Evans, Don Terrence and Bert Phillips. Sponsor is Mr. John Clark and student advisor is Chan Meloy.

SUMNER TO GUIDE AIR TOUR OF BAY AREA

Dr. Alfred R. Sumner will guide an air trip about the San Francisco Bay Area on Sunday, November 7, at 10:30 a. m.

The flight, encompassing 200 miles in one and one-half hours, will begin at San Francisco International Airport. Geological formation, land use patterns, and climatic differences of the Bay Area can be observed from the plane.

Reservations on the DC-3 can be obtained from Eileen Brennan in the Social Science Division office, BSS 113.

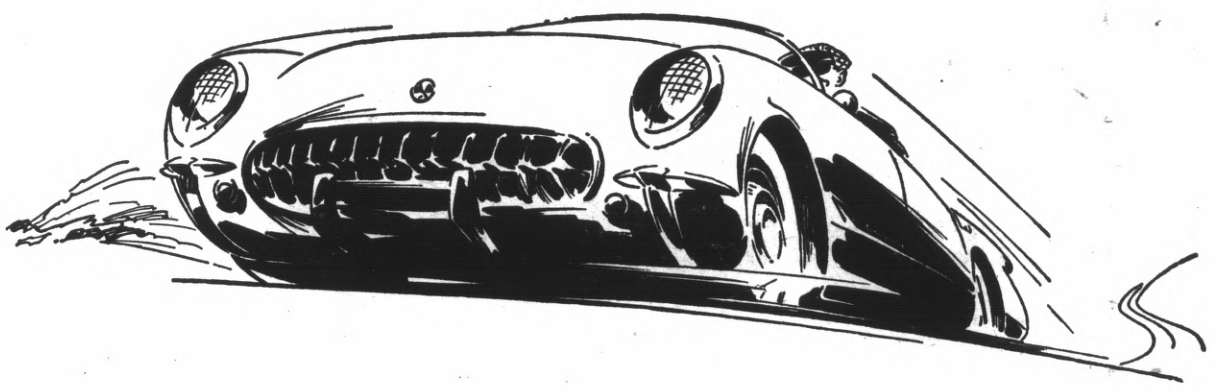
Call VA 4-1530 after 4 p. m.

If you drive for the sheer zest of it

you owe yourself this hour!



If your hands rejoice in the precise balance of a fine gun or the sweet response of a racing sloop . . . then you owe yourself an hour with the Chevrolet Corvette.

You'll find it is, quite literally, like no other car in the world—a heart-lifting blend of the true sports car with all that is best in American engineering.

There is the velvet smoothness of a Powerglide automatic transmission (but with the classic floor selector-lever).

The trouble-free durability of a Chevrolet "Blue-Flame" engine (but with three side draft carburetors to unleash its flashing 150 horsepower).

The ruggedness of an X-braced box girder frame (but with the astonishing impact resistance of a glass-fiber-and-plastic body).

Luxurious seating for driver and passenger in deep foam rubber (but cradled in the traditional security of bucket seats).

Generous luggage room, the panoramic sweep of a deeply curved windshield, the flair of tomorrow's styling (but within the polo-pony compactness of a real road car).

The Corvette blends all this and more. For it is a *driver's* car . . . a low-slung torpedo with a center of gravity only 18 inches above the concrete . . . with outrigger rear springs that make it hold to the road like a stripe of paint . . . with a 16 to 1 steering ratio that puts needle-threading accuracy at your finger tips.

Frankly, the Corvette is a "limited edition," made only in small numbers. It is intended only for the man or woman to whom driving is not just transportation but an exhilarating adventure, a sparkling challenge to skill and judgment. If you are one of these, then you owe yourself an hour with a Chevrolet Corvette.

Call us now and let us set up a demonstration run . . . for in a short 60 minutes you can discover that motoring has a whole new dimension of delight.

Make a date to drive the

Chevrolet Corvette

150-h.p. overhead-valve engine with three side draft carburetors • Four-leaf outrigger springs in rear • Powerglide automatic transmission • Center-Point steering, 16 to 1 ratio • Form-fitting individual seats • Full instrumentation, with tachometer, oil pressure gauge, and ammeter.

SEE YOUR CHEVROLET DEALER

Construction Nearly Finished on New School for Palsied Children

(Continued from Page 2)

teach the children to help themselves as much as possible. The more seriously handicapped may learn only to dress or to feed themselves, but others will learn occupations which will make them self-supporting. After the allotted time the children will go back into locally operated public schools for cerebral palsied children such as the San Francisco Sunshine School. In other cases, social workers and public schoolteachers will provide the child continued care at home.

LOCALLY TRAINED

Teachers are trained at the school in co-operation with SFSC, Stanford, San Jose State, and Mills College. Latest teaching methods, as well as latest therapy methods, are used to aid the children. Many learn to read through the use of an electronic device that flashes a picture of the object alongside the name of the subject. Some who will never be able to hold a pencil learn to write with a specially constructed electric typewriter.

The new building will be divided into three sections: a two-story portion, including administrative and clinical offices; a school section composed of four large classrooms and physical and occupational therapy rooms, and a living area for resident children.

The administrative and clinical wing will include offices for doctors, dentists, psychologists, neurologists and social service workers. A conference room, library, workshops, administrative offices and visiting parents' rooms are on the second floor.

VERY WELL EQUIPPED

The classrooms and education activity rooms of the school section will be spacious since these children must be aided by wheel chairs or braces. Each room is equipped with walking ramps, sand boxes, music and reading areas, toys, clay and block boxes. Large glass sliding doors allow the classrooms to open onto a paved area where tricycles, an important item of cerebral palsy therapy, may be ridden. Occupational therapy includes a carpenter shop and other facilities for manual learning and co-ordination.

The physical therapy section includes a large treatment room containing treatment tables, mats, mirrors and various other equipment for muscular correction.

Complete dining facilities for 40 children and the attendant staff will be provided. Since even the simple act of eating is difficult for these children, five children and one attendant will sit at especially constructed tables.

The entire building has radiant heated floors especially suitable for these children since many of their activities take place on the floor. Large glass wall areas and bright colors are freely used.

FULL-TIME JOBS ARE OFFERED STUDENTS

The Placement Office has announced the following jobs are open for Business Administration students and graduates:

Insurance Company Trainee—This job is for a man under 25. The salary is $260 a month to start.

Public Relations Trainee—This is a full-time position with a downtown theater. Salary is $75 a week.

Executive Trainee—The salary is open to a Business Administration graduate for this job with a manufacturing corporation.

Additional information and applications may be obtained in the Placement Office.

Scholarship Events Group Sponsors Program Nov. 4

Under the auspices of Dr. Louis Wasserman, the Scholarship Events Committee will present in the Little Theater on November 4 a program entitled "High Fidelity — the Sound Waves of the Future."

"A panel consisting of Paul Speegle, Bill Switzer, Dr. Sterling Wheelwright, and a commercial technician will demonstrate high fidelity sound equipment, and discuss the appreciation of high fidelity music.

During the evening both jazz and classical music will be played and the program, according to Dr. Wasserman, will be an enjoyable and constructive one.

This is the second program of the Scholarship Events series for the fall semester. As always, the receipts of the evening will be placed in the scholarship fund to be distributed by the college divisions at the end of the semester.

The price of admission to the program, which will begin promptly at 8 p. m., is 25 cents for students and 50 cents for the general public.

Deadline for incoming publicity Friday, 1 p.m., for the following Friday's issue.

Gators - Nevada Clash Tonight at Cox Stadium

By LEROY PACINI, Gater Sports Reporter

San Francisco State's Golden Gators return to Cox Stadium tonight, shooting for their fifth win of the season against one loss, when they meet the University of Nevada Wolfpack.

The Gators defeated Nevada in an early season thriller, 39-19, and if they can get by Coach Smithwick's crew again, it could serve as a springboard which will launch them on the greatest season in State history.

Backfield speedsters Jim Boggan, Dick Nave and Bob Rodrigio will now be able to see limited action on their injured legs. Quarterback Hoot Ellis will be able to go the route as his leg injury is expected to be fully mended in time for the game. Defensive line bulwarks, tackle Jack Lachapelle and end Bob Barron, with foot and hip injuries, respectively, will also be able to see some action.

COULD BE WILD

The contest could be a wild one, with both teams having been able to score easily in past games. The Wolfpack has one of the best small college passing teams in the country, with brilliant quarterback Ed Jesse pitching to end Don Jones. Hard-running Frank Garcia will be a definite threat from the ground for Nevada. If the Wolfpack can pull their sputtering defense together, they could beat State.

The Gators, however, who pulled their last game with Nevada out of the fire when they scored three quick touchdowns in an explosive third quarter rally, will be tough to handle. Their primary worry will be to halt Nevada's fine passing game. If Jesse's passes can be contained, State should not have much trouble.

ELLIS THROWING

With Ellis throwing to Little, All-America end candidate George Wehner and his running mate, Dick Galliani, and six runners (Harry Bremmond, Walt Bremmond, Dick Nave, Bob Springer, Virgil Owens and Dick Boggan) averaging five yards per carry, State represents a formidable foe to any opponent.

The great punt returning ability of exciting Harry "The Horse" Bremmond, who is among the nation's leaders with an average of close to 30 yards per return, could prove a vital factor in the game.

Game time is scheduled for 8 p. m., but students should be present at 7:30 in order that the rooting section will have time to form.

Jayvees Defeat Humboldt, 18-6

San Francisco's J. V. gridders racked up their third win of the season last week by defeating Humboldt State Junior Varsity, 18 to 6. Levi Mason carried the ball 20 yards around end for the "Baby" Gators' first score.

A 12-yard pass play from Ray Vallejo to Joe Mulso, and an off-tackle burst by Leonard Fernandez scored the other two San Francisco touchdowns. According to J. V. Coach Dave Marcelli, the line played outstandingly well, both on offense and defense, and was really responsible for the win.

Previously, the "Baby" Gators had beaten the Presidio J.. V.'s, 7-0, and the CCSF J. V.'s, 18-6. Menlo J. C. won out over the San Franciscons, 18-6.

Levi Mason has played outstanding ball for S. F. State throughout the season. Johnny Sochor, Gene Larson, Ray derson, Ray Valeljo, Greenberg Unruh, and Mickles, all have aided immeasurably toward State's 3-1 record.

Water Polo Team Wins 2nd Game

States' water polo team suffered a 15 to 10 defeat at the hands of the University of California Aggies in Davis on October 20 despite a 6 to 5 lead at the half. Norman Cady accounted for six Gator goals while Maurice O'Roke took care of three and Jules Voerg put over one.

In the other game last week, State won its second game of the season with Santa Clara, 7 to 4, in the home pool last Friday afternoon.

The locals' goals were distributed as follows: Cady, 4; O'Roke, 1, and Voerg, 2. Special defensive action on the parts of goalie Dan Matarangas and guards Ed Soderman, Ben Elkus and Wally Macomber held the Santa Clara team to four goals.

Next Thursday and Friday the SFSC water polo team will play two home games, both scheduled for 4 p. m.: The California JV's on Thursday and the California Maritime Academy on Friday. Here is an excellent opportunity for the students, the faculty and the adminisitrative staff to come out and support their team—no admission. Enter the door on the northwest corner of the men's gym.

'Play Day' Held Here Tomorrow

Fifty Northern California high schools will send five girls each to State's W. A. A. annual high school play day. This activity will be held tomorrow, October 30, from 9 a. m. to 2:30 p. m.

The girls will engage in such sports as volleyball, basketball, and swimming. During the afternoon the W. A. A. will entertain our guests with demonstrations of fencing, modern dance and synchronized swimming. The general chairman in charge of this event is Norma Slater, vice president of the W. A. A.

Students Urged To Attend Games

With the co-operation of students who have been urged to attend all home games, the Activities Committee hopes to organize a large and enthusiastic rooting section during this year's football season.

Under the direction of Toni Sanchez-Correa, numerous card stunts have been devised. As a means of adding to the success of these stunts, only those students wearing a white shirt, sweater, jacket, or the like will be admitted into the rooting section. It is also anticipated by the Activities Committee that with all present joining in the yells, the "final result will be terrific."

According to Dave Leonard, director of public relations of the Activities Committee, "San Francisco State's home games this year promise to be the best we have ever had on all counts —spirit, action, and turnout. With everyones' co-operation we can't help but boost our team to the top."

Soccer Team Drops Pair; Meets Bears Tomorrow

San Francisco State bowed to City College in the two schools' first soccer game against each other this year by a score of 4 to 1. The Golden Gators were led by Al Thurling, who scored the teams' only goal. CCSF led at half-time, 1 to 0.

The J. V.'s were also beaten by the Rams, 2 to 1. Vince Rafello put the Staters on the scoreboard.

Tomorrow the Gators invade the lair of the California Bear, as they try to even their league record.

Wahl, Webber Win Honors In State Golf Tournament

By BOB JOHNSTON

George Wahl copped the honors for men students in the intramural golf hole-in-one tournament held Wednesday, Thursday and Friday of last week in Cox Stadium, by driving to within 2 feet, 2 inches of the cup. His shot was the best-of-tournament, with the next closest approach just one foot further out.

Tied for second place in the men students division were J. Snowden and Don Browner, who placed 6 feet, 4 inches from the cup. This eliminated third place award in the men students division since only awards are made in each division.

WOMEN'S WINNER

First place winner in the women students division was E. Webber with a 17-foot, 10-inch shot. Fourteen feet further out from the cup but just a few feet from each other were second-place winner B. Lind and third-place winner Miss Reis.

In the faculty division, Coach A. Bridgman placed his shot 3 feet, 2 inches from the cup for top honors, and close behind him were Captain L. J. Gentry and Coach Dan Farmer with 5 feet and 6 feet, 11 inches, respectively.

WINDS HAMPER

This event, favored with beautiful weather all three days except for quite strong winds on Friday, drew over 200 participants in the three divisions. George Suzdaleff was manager of the contest, and he was assisted by James Jaeckle.

FOOTBALL

Intramural touch football teams continue to play off their games preliminary to the championship meet November 3, 4, and 5. On Wednesday of last week the Merced AC beat the Tee Pee AC, 12 to 0. The next day two one-sided games saw Alpha Zeta Sigma swamp the ROTC team, 18 to 0, and the Merced AC thump the Gatorville AC, 20 to 0, while Kappa Omega won over Delta Phi Gamma, 2 to 0..

On Friday all games were won by forfeit: Frosh Lions over Frosh Cobras, Contra Costa AC over Gator AC, East Bay AC over Tee Pee AC, Sigma Pi Sigma over Rock AC, and Kappa Omega over ROTC. In a practice game last Friday the East Bay AC bowed to Sigma Pi Sigma, 10 to 0.

BASKETBALL

Today is the deadline for basketball sign-ups for the Frosh, Fraternity, Club, and Independent leagues. Games will be played during the noon hours beginning neext Monday, and all interested basketball players who have not won a letter from a college or university and who have not played pro basketball are urged to join a team today.

Joseph Cooke, manager of the Intramural Tennis Tournaments, stated last Friday that the deadline for signing up for the mens' singles tennis tournament is November 5. Games will be arranged at times most suited to players' convenience. A sign-up sheet is mounted on the Intramural Bulletin Board in the Men's Gym.

Revisions of U. N. Charter Discussed by Model U. N.

By JOHN P. MAXWELL, Gater Staff Reporter

A seminar studying the possible revision of the United Nations Charter, convened at San Francisco State College last Saturday, October 23.

The principal speaker was Deputy Assistant Secretary of State David M. Wainhouse, who said, **"The United Nations may have its faults but the United States Government is opposed to any drastic revisions in its Charter."**

In a panel discussion during the afternoon, John Henry Merryman, assistant professor of law at Stanford University, criticized the State Department's cautious approach toward Charter revision.

"The cries to go slow are the cries of the do-nothings," Merryman said. "The Charter is pre-atomic, and if it isn't amended to keep pace with the world it will become obsolete."

Secretary Wainhouse further went on to say that the Government has "found it helpful" to dismiss suggestions that the United Nations be greatly strengthened.

ALL—NOTHING GROUPS

"We know that there are those who . . . advocate its transformation from a voluntary organization of sovereign states into some sort of super state," Wainhouse continued in his talk, the keynote of the Bay Area's major observance of United Nations Week.

"At the other extreme are those who . . . would like to see the United States withdraw from the United Nations. Still others would like to see the Soviet Union and its satellites expelled and the United Nations turned into a military alliance."

RED CHINA, TOO?

One major accomplishment of the United Nations Charter revision conference, Wainhouse said, might be the admission of some of the 19 nations still barred from membership.

Red China and Korea are among the nations barred from the U. N.

MODEL U. N. PANEL

The Model United Nations Commission from San Francisco State College sponsored a panel discussion at the Lakeside Presbyterian Church in conjunction with the observance of United Nations Day, last Sunday, October 24.

Four student speakers participated from State including: Bert Phillips, who spoke on the principles of the U. N.; Alan Trimble, who discussed the public schools view of Model U. N.; Bob Cannon told of the students role in the Model U. N.; and Cy Frome, pointed out the necessity for awareness of the U. N. in the community.

Don Griggs acted as a moderator for the discussion and indicated a desire to bring the panel to a similar group on campus.

Sports Show Aims for Trophy Honoring Cox

(Continued from Page 1)

competition. Lois Johnson, also a S. F. State student, and her sister will present an acrobatic act. These girls have appeared on television, and are known throughout the Bay Area.

Guest of honor and master of ceremonies for the evening will be Bud Foster, well-known Bay Area sports commentator.

Admission for the Sports Show will be 75 cents for a single ticket and $1 per couple.

Emmaline and the Wolves

ONCE UPON A TIME there was a beautiful starry-eyed girl named Emmaline. She worked very, very hard trying to get Education, and Noticed by Men. Once in a while she had time to get off the New Campus, as it was called. Then Emmaline sought Clothes with which she might Adorn herself.

Everywhere poor Emmaline went she was assailed by Wolves. These Wolves tried to Lead Emmaline astray.

They told her of places Where she could get Beautiful Things On Sale. But Emmaline had been Led Astray Before and she would have None of it.

"Sales are not really sales these days," Emmaline said in Disgust. "I shall go where the Prices stay Continuously low, and where I can get $2 back every time my bill gets to $20."

It was getting Late, but Smart Little Emmaline knew that she had until 6:30 (and until 9 on Fridays) to get to the Riviera Shop at 1552 on Upper Ocean Avenue. There, from a Most Entrancing Assortment, Emmaline got a Wonderful Skirt, a fabulous Cataline Belgimere sweater, and another Sweater that was knit in Italy by Luisa Spagnoli. Emmaline just showed this ad, and Scooped Up her 10% reduction to State Students. She was Very Happy Now. She realized that Wolves still would try to Lead Her Astray, but she now knew Wat to do at a time like That.
